

THROWING GARBAGE

Bushra and Kassandra
Grade 7

WHY DID YOU CHOOSE THIS TOPIC ?

- ◎ We chose this topic because we know that we have too much garbage in our school and in our country and we want to help keep our environment clean.

The same happens in the school; the students throw garbage in the playground. So students should know about the environmental problems caused by throwing garbage and to think about a solution for this problem.

We started this project in the school. We hope we will also think about taking care of our country "Lebanon".

WHAT ARE OUR MAIN RESEARCH QUESTIONS?

- ◉ Why do students at our school throw garbage?
- ◉ What can we do to stop this problem?
- ◉ How can we keep the playground clean?

WHAT DID WE DO?

- ◉ We did several playground observations of the students during break-time and we took pictures of students throwing garbage and at the end of break.
- ◉ We developed the pictures and designed cardboards to show students what happens during and after the break in our school.
- ◉ We gave a questionnaire first to grade 9 students to test out our questions. Then we gave the questionnaire to grades 1 to 6.

- ◉ We then placed the cardboards on the board and asked the students to walk around and see the pictures.
- ◉ We opened a discussion with the students from grades 1 to 6 to find solutions for this problem.

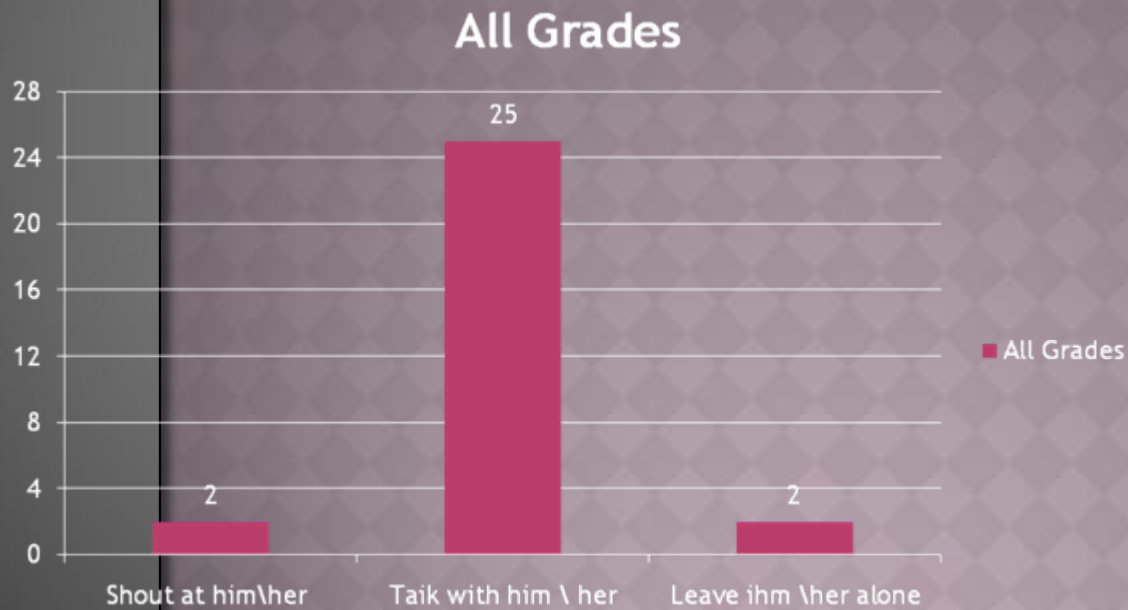

WHAT ARE OUR RESULTS?

- 1) In our playground observation we noticed that many of the students throw garbage while they are playing during break, walking around and when sitting down near the stairs.
- 2) Our questionnaire results...

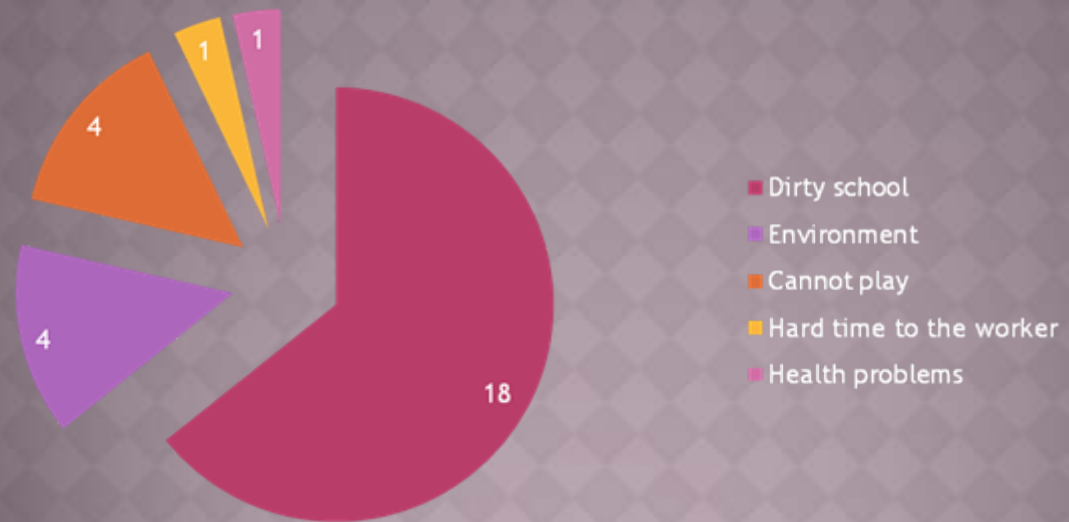

WHAT WOULD YOU DO IF YOU SAW SOMEONE THROWING GARBAGE?

IT IS BAD TO HAVE A DIRTY PLAYGROUND BECAUSE....

Grades 1 to 6

STUDENTS' SUGGESTIONS:

◎ To keep it clean:

1. Add more bins.
2. Write on a paper: "Don't throw garbage on the floor".

◎ When there is garbage:

1. Pick up the garbage.
2. Punish them.
3. Make it fun with activities.
4. Show them the negative effects.

RECOMMENDATIONS

- ◉ Keep the playground clean.
- ◉ Keep your eyes on the students who throw garbage and stop them.
- ◉ We want to make an activity like three groups can pick up the garbage and the group that picks up the most will get a gift.

WHAT ARE THE CONCLUSIONS DRAWN?

- ◎ The students are very happy to stop this problem.
- ◎ The students want more bins in the playground.
- ◎ Students are ready to keep their playground clean and to extend this plan to their homes and to have a better environment in our country.
